ABOUT ME

I'm a 24-year-old graphic designer and front-end developer. I was raised in El Paso, TX and majored in Multimedia Journalism and Graphic Design. Towards the end of my senior year in college, I became fascinated with animations and UI Design. I have developed and fine-tuned my design skills across various mediums, including layout, animation, graphic design, and illustration. I enjoy collaborating with other creators and have always made sure the needs of my clients are top priority. If you are interested in collaborating, let's grab a coffee and talk in person!

COMPUTER SKILLS
